Maltego Custom Training

Custom Training

Join one of our Maltego Expert Trainers to learn how to get the most out of your Maltego tools.

Custom Training is delivered exclusively to your team. Learn when it is convenient for you, request custom demonstrations, and have your questions answered immediately.
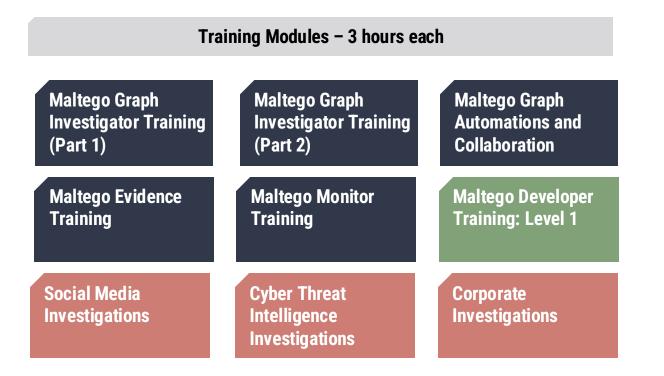

BENEFITS OF CUSTOM TRAINING

- Schedule training at the time that works best for your team
- Request custom demonstrations based on your most common investigations
- One-on-one time with a Maltego Expert Trainer to answer all of your questions
- Hands-on, guided labs to reinforce concepts and foster understanding

REMOTE-FIRST TRAINING

All Maltego Academy Custom Training is optimized to be delivered remotely to distributed teams all over the world.

On-site training is available upon request, subject to availability and region. Additional charges apply. The dates of the on-site training need to be confirmed at least one month before the expected delivery of the training.

⊚ MALTEGO

Custom Training

Live, tailored training to get your team using Maltego quickly, efficiently, and effectively

Training Modules – 3 hours each

Maltego Graph Investigator Training (Part 1)	Maltego Graph Investigator Training (Part 2)	Maltego Graph Automations and Collaboration
Maltego Evidence Training	Maltego Monitor Training	Maltego Developer Training: Level 1
Social Media Investigations	Cyber Threat Intelligence Investigations	Corporate Investigations

- **Included in the Organization plan**
  - **Year 1: 3 modules**
  - **Year 2+: 1 modules**

*Maltego Graph Investigator Training will be tailored either for Cybercrime or Cybersecurity use cases. Parts 1 and 2 not available separately.
**Maltego Search Training included in Maltego Graph Investigator Training

MALTEGO

Investigator Training for Government

One 6-hour session or two 3-hour sessions

This full-day course will teach you everything that you need to know to start incorporating Maltego into your investigations immediately.

Our Subject Matter Experts will guide you through scenario-based investigations that mimic the daily work of cybercrime investigators.

By the end of this course:
- You will have Maltego installed and configured for your specific use-case
- You will understand the key concepts and terms related to Maltego
- You will know which data integrations are valuable for your investigations
- You will be able to conduct meaningful investigations using Maltego

Agenda
- Getting started with Maltego
  - Installation (if needed)
  - Your first search
  - Introduction to Data Integrations
- Investigation Basics
  - Using Breach Data
  - Pivoting between Data Sources
- Dorking with Maltego
  - Using Maltego Standard Transforms
  - Creating Manual Links
- Advanced Investigations and Functions
  - Link Analysis Techniques
  - Organization and Annotation
- Importing and Exporting Data
  - Tables and Reports
- Practical Lab
  - Investigate a real-world online fake business scam

⊙ MALTEGO

Investigator Training for Cybersecurity

One 6-hour session or two 3-hour sessions

This full-day course will teach you everything that you need to know to start incorporating Maltego into your investigations immediately.

Our Subject Matter Experts will guide you through scenario-based investigations that mimic the daily work of cybersecurity investigators.

By the end of this course:
- You will have Maltego installed and configured for your specific use-case
- You will understand the key concepts and terms related to Maltego
- You will know which data integrations are valuable for your investigations
- You will be able to conduct meaningful investigations using Maltego

Agenda
- Getting started with Maltego
  - Installation (if needed)
  - Your first search
  - Introduction to Data Integrations
- Investigation Basics
  - Domains and Hashes
  - Pivoting between Data Sources
- Advanced Investigations and Functions
  - Standard Data Extraction
  - Selection and View Features
- Network Footprinting
  - L1 Footprinting
  - Automation with Machines
- Importing and Exporting Data
  - Tables and Reports
- Practical Lab
  - Investigate a real-world online fake business scam

MALTEGO

Developer Training: Level 1

Data Modeling, Connectors, and Custom Entities and Transforms

This 3-hour course will enable you to empower your analyst teams by unlocking the full potential of integrating your data and customizations available in Maltego.

Learn to model your data to answer your analyst team's questions. Integrate your existing internal database into Maltego by developing custom Entities and Transforms.

By the end of this course:
- You will be able to model objects and relationships in your dataset and map them onto Maltego Entities and Transforms
- You will Evaluate and choose which Maltego Entities to use and what custom entities to create
- You will Design and develop at least one Custom Entity and Transform

Agenda
- Section 1
  - Maltego Introduction
  - Case Study Introduction
  - Data Modeling and Design
  - Database Connectors
  - Custom Entities
    - Demonstration
    - Lab
- Section 2
  - Defining Entities in Python
  - Custom Transforms
    - Maltego Architecture
    - Demonstration
    - Lab
    - Adapting for TDS
- Section 3
  - Possibilities for Developers
  - Feedback Form
  - Q&A

MALTEGO

Investigation Deep Dives

Move past the basics to dive deep into the most actionable investigative tools and techniques used in your most common investigations.

What to expect:
- Common workflows and attack surfaces
- Data sources and integrations
- Step-by-step use case demonstrations
- Practical labs

Social Media Investigations

Learn how to harness the power of social media, data breaches, and personally identifiable information to uncover hidden connections.

Test your skills while investigating real-world profiles, businesses, and platforms.

CTI Investigations

Leverage the power of threat intelligence feeds to identify IoCs, possible network communication, and threat actor groups responsible for attacks.

Investigate well-known threat actor groups and malware using the most powerful data available.

Corporate Investigations

Uncover connections and relationships between businesses, organizations, shareholders, and employees while also monitoring sanctions.

Explore the links that connect various organizations and associated individuals.

Automations and Collaboration

One 3-hour Session

This half-day course will teach you all about automating your investigations and collaborating with your team while using Maltego.

Invest time in building your custom Maltego Machines and save even more time while running your most common investigations.

By the end of this course:
- You will be able to set up a collaboration session to work simultaneously with your colleagues on a shared graph
- You will build and run Maltego Machines that execute Transforms based on preconfigured workflows

Agenda
- **Collaborating within teams**
  - Passive collab- File sharing
  - Active collab- Collaboration servers
  - Set up and configurations
  - Running your first collaboration graph
- **Automating workflows**
  - Introduction to Machines
  - Types of machines
  - Setting up your first machine
- **Customizing automations**
  - Parameters and Type Selection
  - Preselected and User-driven filters
  - Operations on entities- bookmarks etc.
